ANDISWA MAYABA

WEB DEVELOPER | CLOUD ADMINISTRATION | DATA & TECHNOLOGY

076 463 3508 | mayabaandiswa@gmail.com | linkedin.com/in/mayaba-andiswa-b2a20a69 | mayabaandiswa-eng

PROFESSIONAL PROFILE

Emerging Web Developer and technology professional with a multidisciplinary background spanning web development, cloud administration, data analytics, economics and supply chain management. Skilled in HTML, CSS, JavaScript, APIs, Git/GitHub, AWS and Microsoft Azure, with practical project exposure to responsive websites, interactive applications, cloud infrastructure and data visualisation. Brings strong analytical, administrative, problem-solving and communication skills, with a strong commitment to continuous learning and building practical digital solutions.

TECHNICAL SKILLS

- Web Development: HTML5, CSS3, JavaScript, responsive design, DOM manipulation, APIs
- Development Tools: Git, GitHub, Visual Studio Code, Netlify
- Cloud: Microsoft Azure, AWS, Azure VMs, VNet/subnets, NSGs, IAM, Azure Storage, Azure Functions
- AWS Services: EC2, S3, Lambda, SQS, SES, Route 53, CloudWatch, IAM, DynamoDB, Kinesis
- Data & Analytics: Tableau, data analysis, dashboards, forecasting, data cleaning
- Databases & Platforms: Azure SQL Database, DynamoDB, Microsoft Access
- Professional: Procurement support, administration, data capturing, records management, reporting, customer service
- Government/SCM: PFMA, Treasury Regulations, PPPFA/Preferential Procurement, BBBEE, LOGIS, BAS, CSD, SCM controls

SELECTED TECHNOLOGY PROJECTS

Weather Forecast Web App: Built a responsive weather application using HTML, CSS and JavaScript with API integration, city search and dynamic weather/forecast updates.

Tableau Superstore Dashboard: Created an interactive data visualisation dashboard to analyse sales and business performance.

Air Cargo Analysis: Analysed air cargo data to identify patterns and support data-driven insights.

AWS Serverless Feedback Website: Designed a serverless feedback solution using AWS services including Lambda, S3, SQS, SES and Route 53.

AWS SQS Architecture: Worked with an AWS messaging architecture using SQS, including message retention and cloudbased processing concepts.

Azure Cloud Infrastructure: Practised Azure networking and infrastructure using VNets, subnets, NSGs, VPN Gateway, virtual machines and storage.

Azure Identity & Access: Worked with Azure AD groups, roles and Conditional Access concepts for access management and security.

Cloud Monitoring & Scaling: Worked with CloudWatch monitoring, auto scaling and cloud infrastructure reliability concepts.

ScienceQtech Employee Performance Mapping: Worked with employee data to support performance analysis and mapping. **Walmart Forecasting / IQR Filtering:** Completed data analysis exercises involving forecasting and outlier filtering.

PROFESSIONAL EXPERIENCE

Supply Chain Management Officer / SCM Administration | Department of Education | [Dates to edit]

Virtual Cloud Administrator & Systems Support / Learnership | Flyzy | [Dates to edit]

Data Capturer / Administrative Assistant Intern – Supply Chain Management | Department of Education | [Dates to edit]
Administrative Assistant | AFree Cinema | [Dates to edit] **Key responsibilities:**

- Supported demand and acquisition, procurement administration, quotations/RFQs, supplier information and purchase order processes.
- Assisted with bid and tender administration, including bid documents, opening minutes, audit trails, contract process support and related queries.

- Maintained electronic records, registers and supplier documentation, including CSD, LOGIS, MBD/SBD and procurement records.
- Supported asset administration through asset register updates, verification, issuing of furniture/equipment, barcoding, stocktaking and disposal processes.

- Supported fleet administration through vehicle records, logbooks, petrol card administration, vehicle issuing/inspections and transport-related accounts.
- Used Microsoft Office and Microsoft Access for data capturing, supplier databases, reporting and administrative record keeping.
- Worked with procurement and SCM principles including PFMA, Treasury Regulations, PPPFA/Preferential Procurement Regulations, BBBEE, SCM Practice Notes and Batho Pele.

Cloud / IT project responsibilities:

- Worked with AWS and Azure cloud environments through practical labs and projects.
- Configured and explored Azure VNet/subnets, NSGs, VPN Gateway, virtual machines and storage.
- Worked with Azure identity concepts including groups, roles and Conditional Access.
- Worked with AWS services including EC2, S3, Lambda, SQS, SES, Route 53, CloudWatch, IAM, DynamoDB and Kinesis.
- Applied cloud monitoring, scalability, access management and infrastructure concepts in practical projects.

EDUCATION

BCom Honours in Transport Economics — University of South Africa (UNISA) (Completed)

Advanced Diploma in Economics — Nelson Mandela University (Completed)

National Diploma in Economics — Nelson Mandela University (Completed)

Grade 12 / National Senior Certificate — Olivet Private School (Completed)

Subjects: IsiXhosa Home Language | English First Additional Language | Mathematics | Accounting | Economics | Business Studies | Life Orientation

CERTIFICATIONS & TRAINING

- SheCodes Web Development — Certificate of Achievement (2026)
- Deviare Cloud Administrator / Cloud Administration Learnership
- Microsoft Azure Fundamentals / AZ-104 learning and practical exposure
- AWS Database Migration course
- Additional AWS and Azure practical cloud projects and training

ADDITIONAL COMPETENCIES

- Analytical and problem-solving skills
- Written and verbal communication
- Teamwork and collaboration
- Administrative and organisational skills
- Data capturing and attention to detail
- Customer service
- Continuous learning and adaptability
